Abstract

The purpose of this report is to collect a selection of press articles related to Be.CULTOUR project from February 2021 to June 2024. The activities carried out by the CNR and the Partners and the results achieved within the Be.CULTOUR project have been communicated through press releases, press articles and TV/radio at local, national and European level. In the period under analysis, a selection of 300+ press articles to promote events and inform about project activities and results has been collected in this report, demonstrating the outstanding potential of the Be.CULTOUR Consortium for general public outreach.

1. Description of the Project

Be.CULTOUR stands for “Beyond CULTural TOURism: heritage innovation networks as drivers of Europeanisation towards a human-centred and circular tourism economy”. It expresses the goal to move beyond tourism through a longer-term *human-centred* development perspective, enhancing cultural heritage and landscape values.

Cultural tourism entails opportunities but also risks. Tourism as a whole can be a highly volatile economic sector. If not managed properly, cultural tourism can also easily turn into a “value extractive” industry, generating negative environmental, social and cultural impacts on local communities and ecosystems. This project will **develop specific strategies to promote an understanding** of cultural tourism, which moves away from a “stop-and-go” consumer-oriented approach towards one that puts humans and circular economy models at its centre, paying attention to nature, communities and cultural diversity. “Place”, intended as the *genius loci*, the ancient spirit of the site expressing its “intrinsic value” and “people” as co-creators of its uniqueness, culture, art, tradition, folklore, productivity, spirituality, as well as its “time space routine”, are the focus of Be.CULTOUR, which aims at realizing a longer-term development project for the pilot areas involved.

The overarching goal of Be.CULTOUR is to **co-create and test sustainable human-centred innovations for circular cultural tourism through collaborative innovation networks/methodologies and improved investments strategies**. Targeting deprived remote, peripheral or deindustrialized areas and cultural landscapes as well as over-exploited areas, local **Heritage innovation networks** will co-develop a long-term heritage-led development project in the areas involved enhancing **inclusive economic growth, communities’ wellbeing and resilience, nature regeneration** as well as **effective cooperation** at cross-border, regional and local level.

Wide and diversified partnerships of stakeholders from **18 EU and non-EU regions** of Northern-Central and Southern Europe, the Balkans, the Eastern neighbourhood and the Mediterranean will be the driving force of the project. A **community of 300 innovators** (which includes regional authorities and municipalities, clusters and associations, museums and tourist boards, entrepreneurs, chambers of commerce, citizens, researchers, practitioners as well as project partners) in **6 pilot regions** will **co-create innovative place-based solutions for human-centred development through sustainable and circular cultural tourism**.

Collaborative “Heritage innovation networks” will be established in **6 European deprived remote, peripheral and deindustrialised areas and cultural landscapes** identified as “pilot innovation ecosystems”: committed to the project’s objectives, they have defined clear cultural tourism-

related challenges requiring innovation that will serve as the basis for the collaboration with the **16 additional “mirror innovation ecosystems”**. Mutual learning and up-scaling of business solutions will be the objectives of the collaboration between pilot and mirror ecosystems, building the sustainability of the project's results beyond its lifetime.

By adopting a human-centred quadruple/quintuple helix approach to co-design, **Be.CULTOUR will result in 6 community-led Action Plans, 18 innovative human-centred solutions and 6 close-to-market prototypes** of new cultural tourism integrated services and products: these will directly contribute to **inclusive economic growth, communities’ wellbeing and resilience, and nature regeneration** in pilot and mirror regions, **stimulating effective cooperation** at a cross-border, regional and local level. The core partners of the Consortium will progressively build Be.CULTOUR sustainability by broadening the interregional collaboration while anchoring it to relevant EU initiatives in the academic, business and institutional realms.

1.1 Be.CULTOUR specific objectives

The scopes of the Be.CULTOUR project will be achieved through a set of specific, measurable, achievable, realistic and time-constrained (SMART) specific objectives:

Objective 1 – To assess the impacts and market potential of sustainable and circular cultural tourism at national, regional and local level through multidimensional quantitative and qualitative indicators, innovative statistical methods and advanced smart data management systems;

Objective 2 – To build a Community of Practice of 6 pilot regional ecosystems and a Community of Interest with 16 “mirror ecosystems” in EU and non-EU countries actively engaged in knowledge-sharing and exploitation of Be.CULTOUR’s approach, methodology, tools, and innovative solutions for sustainable and circular cultural tourism;

Objective 3 – To co-develop 6 Action Plans for sustainable and circular cultural tourism by establishing collaborative “Heritage innovation networks” in 6 pilot regions in Northern-Central and Southern Europe, the Balkans, the Eastern neighbourhood and the Mediterranean;

Objective 4 – To co-develop, prototype and test human-centred and place-specific product, process and service innovations for sustainable and circular cultural tourism in pilot heritage sites;

Objective 5 – To provide policy recommendations for more effective use of European Structural Investment Funds (ESIFs) and other EU funds to support cultural tourism innovation ecosystems in pilot and mirror regions, and develop a proposal of evolution of ESIFs through synergies with other public funds;

Objective 6 – To contribute to deepen cultural Europeanisation through information and educational activities focused on the European history, identity and culture expressed in tangible and intangible cultural heritage and cultural landscapes, developing European Cultural Routes and European Heritage Labels in pilot heritage sites.

All partners have wide experience in developing and testing the Be.CULTOUR proposed approach, methodology and tools, ensuring the effective and time-constrained achievement of all the above-mentioned specific goals.

2. Press Articles

The activities carried out by the CNR and the Partners and the results achieved within the Be.CULTOUR project have been communicated also through non-scientific and non-peer-reviewed publications.

Following what established by Grant Agreement -The beneficiaries must promote the action and its results, by providing targeted information to multiple audiences (including the media and the public) in a strategic and effective manner.

In the period under analysis, from February 2021 to June 2024 (M1 - M45), a selection of press articles has been produced to promote events and inform about project activities and results.

2.1 Kick-off Meeting

The following list includes a selection of articles published on 2021 about the kick off meeting of the project: "Be.Cultour: Beyond cultural tourism: heritage innovation networks as engines of Europeanization toward a human-centered circular tourism economy".

2.4 Workshop and study visit in Saltaire

The following list collects a selection of article published in 2023 about the Saltaire Inspired, a regional representative in the Be.CULTOUR community. A delegation of tourism and culture experts from across Europe visited Saltaire and the Bradford area over the bank holiday weekend (27 – 29 May) to learn more about key events and destinations in the district, including Bradford 2025. Organised by Saltaire Inspired and focussed on the annual Saltaire Arts Trail, the visit was organised with Be.CULTOUR (Beyond Cultural Tourism), aimed at working with communities across Europe to create sustainable, community-led cultural tourism opportunities.
